2 • KEY INFORMATION ON THE ISSUER

2.1 WHO IS THE ISSUER OF THE BONDS?

Domicile and legal form, its LEI and country of incorporation

The Issuer is CF Estates Finance p.l.c., a public limited liability company registered in Malta in terms of the Companies Act (Cap. 386 of the laws of Malta). The Issuer was incorporated and is domiciled in Malta and with legal entity identifier (LEI) number 391200TP055LTCBL9P32.

Principal activities of the Issuer

The Issuer does not undertake any trading activities itself and its sole purpose is that of acting as the finance arm of the Group, principally by raising finance and advancing same to members of the Group. The assets of the Issuer therefore principally consist of loans granted to companies forming part of the CF Group.

Organisational structure of the Group

The Issuer is fully owned by CF Estates Ltd. (C 102632), which is the Guarantor of the Bond Issue, except for one (1) share which is held by CF Homes Ltd. (C 96073). 2.3 WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE ISSUER?

The most material risk factor specific to the Issuer is the following:

Dependence of the Issuer on the Group

The Issuer does not undertake any trading activities itself and its sole purpose is that of acting as the finance arm of the Group, principally by raising finance and advancing same to members of the Group. Its assets therefore consist primarily of loans issued to Group companies, and the only revenue generating activities of the Issuer is the receipt of principal and interest income received on the said loans. The Issuer is therefore economically dependent on the operational results, financial condition and performance of its borrower Group companies, principally the Guarantor, which will in turn economically depend on the results and performance of its Subsidiaries, which may in turn be negatively affected by various risks affecting them and their business and operations. Therefore, the risks intrinsic in the business and operations of Group companies, and underperformance of these Group companies, may have an adverse effect on the ability of the Issuer to meet its obligations in connection with the payment of interest and principal under the Bonds.

3 • KEY INFORMATION ON THE SECURITIES

3.1 WHAT ARE THE MAIN FEATURES OF THE SECURITIES?

The Redemption Value shall be €102.825 per Bond if the Redemption Date occurs at any time between, and including, 15 December 2031 and 14 December 2032, €101.4125 per Bond if the Redemption Date occurs at any time between, and including, 15 December 2032 and 14 December 2033, €100.70625 per Bond if the Redemption Date occurs at any time between, and including, 15 December 2033 and 14 December 2034, and €100 per Bond (i.e. the nominal value) if the Redemption Date occurs at any time after 14 December 2034. The Bonds bear interest at the rate of 5.65% per annum on the nominal value of the Bonds, payable on 14 December of each year, with the first interest payment being due on 14 December 2027 and the last interest payment being due on Redemption Date.

The Bonds shall be issued in fully registered and dematerialised form and will be represented in uncertificated form by the appropriate entry in the electronic register maintained on behalf of the Issuer at the CSD. On admission to trading the Bonds shall have the following ISIN: MT0002701218. The Bonds shall be freely transferable.

The Bonds constitute the general, direct and unconditional obligations of the Issuer and shall at all times rank *pari passu*, without any priority or preference among themselves and shall rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. The Bonds shall be jointly and severally guaranteed in respect of both the interest due and the principal amount by the Guarantor in terms of the Guarantee and they shall also be secured by a first ranking Special Hypothec to be constituted by CF Hotels Ltd. on the Security Property owned by it (essentially the Meltemi Residence) in favour of the Security Trustee for the benefit of the Bondholders. In respect of the said CF Hotels Ltd., save for such exceptions as may be provided by applicable law, the Bonds shall rank with priority or preference to all present and future unsecured obligations of the said CF Hotels Ltd., by virtue and to the extent of the said first ranking Special Hypothec. Furthermore, CF Hotels Ltd. shall secure *inter alia* the Issuer's, the Guarantor's and its own obligations under the Prospectus, the Deed of Hypothec and the Trust Deed (including, without limitation, the obligation to make good any loss or damage to the Security Property) by granting a pledge over CF Hotels Ltd.'s present and future rights, title and interest in, and claims to all proceeds of, the policy/ies of insurance relating to the Security Property, both during and after its development (the Pledge of Insurance) by means of the Pledge of Insurance Agreement. Such Pledge of Insurance shall constitute a first ranking privilege over the pledged assets and rights, and the Security Trustee's rights thereunder shall accordingly, save for such exceptions as may be provided by applicable law, rank with priority or preference to the rights of other creditors of the said CF Hotels Ltd. in respect of and to the extent of the assets and rights covered by such Pledge of Insurance.

There are no special rights attached to the Bonds other than the right of the Bondholders to (i) repayment of the Redemption Value and payment of interest on the due dates; (ii) the benefit of the Collateral (namely the Guarantee and the first ranking Special Hypothec over the Security Property) through the Security Trustee; (iii) attend, participate in and vote at meetings of Bondholders in accordance with the Terms and Conditions of the Bond Issue; and (iv) such other rights attached to the Bonds emanating from the Prospectus.

3.2 WHERE WILL THE SECURITIES BE TRADED?

Application has been made to the Malta Stock Exchange for the Bonds to be listed and traded on its Official List.

3.3 IS THERE A GUARANTEE ATTACHED TO THE SECURITIES?

The Guarantee

Apart from the above-mentioned first ranking Special Hypothec on the Security Property and the Pledge of Insurance to be granted by CF Hotels Ltd., the Bonds will also be secured through the joint and several guarantee of the Guarantor in terms of the Guarantee dated 9 November 2026. Accordingly, the Security Trustee, for the benefit of itself and the Bondholders, shall be entitled to request the Guarantor to pay both the interest due and the Redemption Value under said Bonds if the Issuer fails to meet any amount, when due. The Guarantee also entitles the Security Trustee to take action against the Guarantor without having to first take action against the Issuer. The Guarantee constitutes a direct and unconditional obligation of the Guarantor, and the Guarantor's obligations under the Guarantee shall rank *pari passu* with all its other unsecured and unsubordinated obligations.

The Guarantor

The Guarantor is CF Estates Ltd., a private limited liability company registered in Malta in terms of the Companies Act (Cap. 386 of the laws of Malta) having company registration number C 102632. The legal entity identifier (LEI) number of the Guarantor is 3912000P4VJJ2FYN8497. The Guarantor is the parent company of the Group and acts mainly as a holding company, holding the shares in its Subsidiaries (including the Issuer).

3.4 KEY RISKS RELATING TO THE GUARANTOR AND THE COLLATERAL

Economic and financial risks

Risks arising from war and/or conflict

Wars and conflicts which may from time to time occur in various parts of the world, including the current Russia – Ukraine armed conflict and the Middle Eastern conflict, may present new risks or exacerbate certain risks to which the operations of the Group are subject, including shortage of and/or increase in prices and delay in importation and delivery of supplies needed for the business operations, apart from the negative effects these may have on the economy as a whole, including hospitality and real estate sectors.

Risks relating to inflation

As of the date of this Prospectus, inflation remains at relatively elevated levels when compared with past decades. Inflation may negatively affect the future financial performance of the Group, including through the consequent increase in the prices of goods and services, the cost of new opportunities, higher borrowing costs, and the overall decrease in purchasing power.

Risks relating to financing of the Group

As at the date of this Prospectus, various Group companies have bank debt and also financing raised publicly through issues of securities. Whilst some of the bank facilities will be repaid through the proceeds of issue of the Bonds, the Group's overall financial gearing levels will further increase pursuant to the Bond Issue, and may also increase as a result of further future indebtedness. The increase in the level of financial gearing gives rise to all risks typically associated with higher leverage, including lower asset cover and lower debt service cover levels. This may have an adverse effect on the profitability of the Guarantor or its Subsidiaries. Furthermore, there can be no assurance that the Group will have access to such further debt financing as may be required from time to time at reasonable terms.

Business and operational risks

The Group depends on third parties in connection with its business, giving rise to counter-party risks

The Group relies upon third party or related service providers for the construction and completion and, where applicable, subsequent operation of its property developments. This gives rise to counter-party risks where such third parties default on their contractual obligations, including the resulting development cost overruns or delays in completion or loss of revenue, with the resultant negative impact on the Group's business, financial condition, results of operations and prospects, and may also expose the respective Group company to complaints, claims or litigation by property buyers, owners of neighboring tenements and other third parties for contractual default or for damages. Furthermore, prospective purchasers and tenants of properties may default on their payment and other obligations towards the relevant Group companies, thus causing potential liquidity shortages for the Group and forcing same into potential litigation.

Material risks relating to real estate acquisition, development and sale

There are a number of factors that commonly affect the real estate development industry, many of which are beyond the Group's control, and which could adversely affect the economic performance of the Group and the value of the real estate properties under development within the portfolio of the Group. Such factors include planning permit delays and costs, changes in local market conditions (such as oversupply or reduction in demand for real estate), increased market competition, shortages and/or price increases in raw materials and services leading to cost overruns, insufficiency of resources to complete the projects, penalties or litigation resulting from delays in completion, possible structural and environmental problems, acts of God and other force majeure events, health and safety risks and litigation associated therewith. Furthermore, real estate investments are generally illiquid.

Risks relating to the hospitality industry

The Group's hospitality operations and the results thereof are subject to external factors that could adversely affect its business, many of which are common to the hotel industry and beyond the Group's control, including changes in travel patterns and customer trends, the seasonality and cyclical nature of the tourism industry, the impact of outbreaks of contagious diseases and other unexpected calamities on patterns and/or volume of travel, the introduction of legal requirements or restrictions related to the hospitality industry, increases in operating costs and taxes and increasing competition.

Risks relating to the rental business of the Group

The Group is involved in rental of offices and other outlets and properties to third parties. This business sector may be affected by a number of factors, including national economy, political developments, changes in relevant laws, interest rate fluctuations, inflation and other economic, political and social factors. An increase in the supply of offices and commercial premises could impact negatively upon capital values and income streams of the Group's properties, and the Group's ability to source new lessees upon termination or non-renewal of the then current leases. The business, revenue and projected profits of the Group would also be negatively impacted if lessees fail to honour their respective lease obligations.

Legal and regulatory risks

Risks relative to changes in laws and new industry standards and practices

The Group and its current and future operations are subject to laws and regulatory requirements applicable to property development, hospitality, real estate letting and other business sectors within which they operate. The regulatory environment in which the Group operates is constantly evolving, with the introduction of new rules, regulations and policies, or the amendment of existing ones, which may result in the imposition of new requirements for the Group in terms of sustainability factors, building standards, housing standards, accommodation standards, health and safety and other matters. The Group is at risk in relation to changes in laws and regulations to which it is subject and the timing and effects thereof, their interpretation, and in administrative practices, which cannot be predicted and which can negatively affect the Group's business and operations and also its profitability, even in terms of additional costs of compliance and potential additional taxation.

Risks relating to the Collateral

Risks relating to the Guarantee

The strength of the undertakings on the part of the Guarantor under the Guarantee and therefore, the level of recoverability by the Security Trustee from the Guarantor of any amounts due under any of the Bonds, is dependent upon and directly linked to the financial position and solvency of the Guarantor, which will be affected by the level of indebtedness and liabilities incurred by such Guarantor.

Risks relating to the Special Hypothec over the Security Property, its value and ranking

In its existing state, the Security Property has been valued for a total amount which is less than, and which is not sufficient to cover, the full Redemption Value of the Bonds and at least one year's interest thereon. Accordingly, it is the intention that part of the proceeds of the Bond Issue intended to be used for the completion and finishing and furnishing of the Security Property (i.e. Meltemi Residence) as referred to in paragraph (ii) of section 4.2 of this Summary, although they will constitute a loan by the Issuer to the Guarantor under the Issuer-Guarantor Loan from inception, they will not be transferred to such Guarantor but will be retained in cash by the Security Trustee under trust, who will be irrevocably authorised by the Guarantor to retain the same in cash, and to release and pay the same only to the relevant contractors and suppliers against invoices for works and furnishings of the said Security Property. The estimated value of such Security Property after completion of works will increase, and should be sufficient to cover the payment of the full Redemption Value and one year's interest under the Bonds. There is however no guarantee that factors will not arise which will negatively affect such completion and/or the actual value of the completed works.

Furthermore, whilst the Special Hypothec in respect of the Bonds grants the Security Trustee a right of preference and priority for repayment of the Bonds over the creditors of CF Hotels Ltd. in respect of the Security Property owned by it, there can be no guarantee that the value of the said Security Property determined in the Property Valuation Report would actually be recovered and achieved on the market should the Special Hypothec be enforced. This may be the result of various factors, including general economic factors that could have an adverse impact on the value of the Security Property. There is also no guarantee that the value of Security Property determined in the aforesaid independent valuation is necessarily correct or would actually be achieved on the market. The valuation of property is inherently subjective.

The first ranking Special Hypothec to be constituted by CF Hotels Ltd. over the Security Property owned by it in favour of the Security Trustee shall rank after the claims of privileged creditors should a note of inscription of a special privilege be registered with the Public Registry securing the privileged creditor's claim.

3.5 WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?

Suitability of the Bonds

Debt instruments which, like the Bonds, may be redeemed by an issuer prior to their maturity date are considered as having an embedded call option, and the price of the bonds will take this factor into account. In view of their early redemption component, the Bonds are deemed as complex financial instruments for the purposes of MIFID II. An investment in the Bonds may not be suitable for all recipients of the Prospectus and prospective investors are urged to read and understand the Prospectus in full and to consult an investment advisor before making an investment decision with a view to ascertain that s/he has sufficient knowledge and understanding of the Bonds and the merits and risks of investing in the Bonds, and that s/he has sufficient financial resources and liquidity to bear all the risks of an investment in the Bonds. Otherwise there is a risk that such investor may acquire an investment which is not suitable for his/her risk profile.

Trading and liquidity risks

There can be no assurance that an active secondary market for the Bonds will develop or, if it develops, that it will continue. Nor can there be any assurance that an investor will be able to re-sell his/her Bonds at or above the Bond Issue Price or at all. A trading market having the desired characteristics of depth, liquidity and orderliness depends on a number of factors, which are dependent upon the individual decisions of investors and the general economic conditions of the market, over which the Issuer has no control. The outbreak of the COVID-19 pandemic in 2020, has resulted in a highly volatile economy. This volatility may also increase as a result of future outbreaks of contagious diseases or as a result of wars or conflicts between countries, including the current Russia – Ukraine conflict and the Middle Eastern conflict. Continued or increased volatility and disruption in the capital markets may impair the saleability of the Bonds.

Interest rate risk

Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds. In particular, if interest rates rise, the prices that market participants will generally be willing to pay for the Bonds can be expected to decline. Moreover, price risks for longer maturity bonds tend to be higher than for shorter maturity bonds.

Amendments to Terms and Conditions

The Issuer may call a meeting of Bondholders in the event that it wishes to amend any of the Terms and Conditions of this Bond Issue. These provisions permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority.
